

## KIT LÁMPARAS OnLED RGB V1

**wireless KIT OnLED RGB V1 wireless lamp**

Nueva gama de lámparas *wireless* controladas mediante OnLED Action Remote Control.

OnLED Action Remote Control envía directamente las órdenes a las lámparas OnLED RGB V1 *wireless* sin necesidad de módulos de control externos. El sensor de movimiento permite el cambio de colores y secuencias a través de movimientos. Además la pulsación de botones activa el cambio de color, las secuencias y su velocidad, y el encendido / apagado de las lámparas.

New range of wireless PAR56 lamps are controlled by remote control OnLED Action.

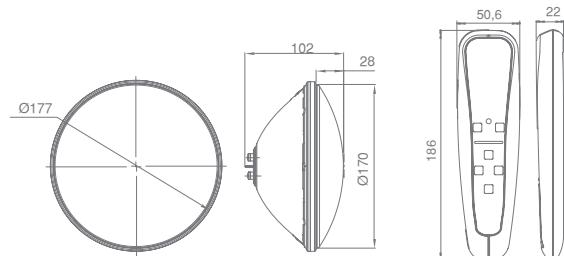

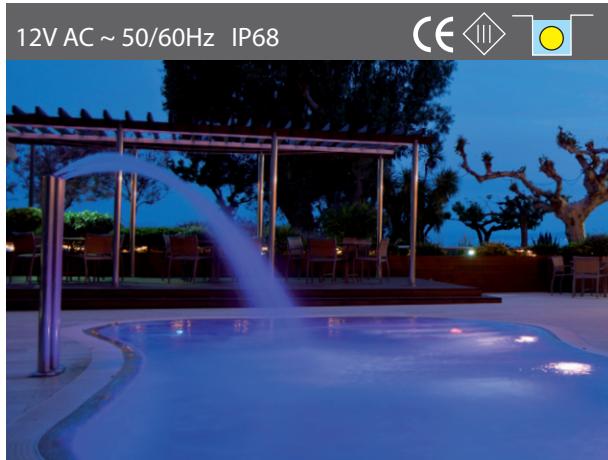

The OnLED Action Remote Control sends orders directly to the OnLED RGB V1 wireless lamps which does not need external control modules. A motion sensor enables colours and sequences to be changed through movement. Also pressing the push button changes the colour, the sequences and their speed, and switch on or switch off the OnLED RGB V1 wireless lamps.
